ABSTRACT OF THE DISCLOSURE

A system for installing a printer driver for a printer connected on a network, includes a link for accessing an installer, wherein the link is displayed in a host device connected on the network in a web page generated by a web server resident on the printer; a printer driver for the printer; an identifier for uniquely identifying the printer on the network, wherein, responsive to activating the link, the identifier stores the printer's unique identification on the host device; and an installer, responsive to activating the link and to receipt of the printer's unique identification, for installing the printer driver on the host device.
